TOWARDS NEW PEAKS

'We the UAE 2031' aims to translate the vision of His Highness the President of the UAE for the future of the UAE into a tangible reality. Accordingly, all institutions in the UAE will work to fulfill it, leading to the achievement of the UAE Centennial Plan 2071 and the Principles of the 50.

The main areas in this document are divided into four national priorities representing the main sectors of interest, with clear focus areas and measurable targets that will be announced.

Throughout the last 50 years of the UAE's history there have been exceptional developmental leaps across all sectors thanks to the wise vision of the founding fathers. The UAE has also implemented a developmental model that has become an inspiration for many countries around the world.

We are now on the cusp of a new stage defined by an accelerating pace of change. The UAE steps confidently towards the future under the leadership of UAE President His Highness Sheikh Mohammed bin Zayed Al Nahyan, His Highness Sheikh Mohammed bin Rashid Al Maktoum, UAE Vice President, Prime Minister, and Ruler of Dubai, and the members of the Federal Supreme Council. The journey of development and growth that was started by the founding fathers, continues and will project the UAE towards becoming the world's leading nation within the next 50 years.

schwebenTM

Schweben is a collection of hanged seats, a mix between geometry, functionality and simplicity. Inspired by the Bauhaus movement basic elements and colors.

A simple re-representation of the floating/hanging seats idea. Available in basic colors "red, blue and yellow", white and oak finish are both available as well.

the sense of motion.

Nature loves to keep moving, even when it is static, so is the humans; at work, home, or at library. This seat gives the ability to move gently and smoothly while sitting sailing in your thoughts. It gives you the sense of motion.

The main inspiration came from understanding the geometry, the basic shapes and how strong they are creating a composition. That guides to focus on those shapes separately. To feel the beauty of each one. Noticing the big potential in lines, combining that with the human scale and functionality.

schweben | Square

Schweben Square is the main model of this collection. Neat and simple, giving the abstract feel of space and refinement. Framing your vista of imagination. Practical and stylish, providing a flat surface to sit.

Third Cycle | 2015 - 2016 69

Evaluation Themes

The Dubai SME 100 evaluation themes have been developed through careful research and deliberation on enterprise performance.

Many global enterprise ranking systems and international excellence models were studied, and the most appropriate ranking system for Dubai SMEs were developed, keeping them in line with the overall strategies for Dubai SME Development and the objectives of the ranking program.

This ranking system is designed to be an annual ranking system. Unlike most ranking systems that use mainly financial measures to rank enterprises, the Dubai SME 100 is ranked based on a weighted combination of financial and non-financial themes.

There are two financial parameters:
Growth in Turnover and Growth in Profit.

Non-financial parameters include:
Innovation, Human Capital Development, International Orientation, Corporate Governance, and Corporate Social Responsibility.
